Title: power connections and control

Size: USLetter Date: 2025-08-17
KiCad E.D.A. 9.0.3

Rev: a
Id: 2/4

electrolytic capacitor voltage ratings are read from markings
ceramic capacitor values are measured or estimated

Output of OB2222M is non-isolated and is referenced to input ground.

Rev: a
Id: 3/4

Capacitors on this page are 10V X5R unless otherwise noted.
Resistors on this page are ±1% unless otherwise noted.
